

Railway applications

finder[®]

SWITCH TO THE FUTURE

Finder has been making electromechanical relays in Europe since 1954, and has the widest range of quality approvals of any relay manufacturer.

Finder produces relays, timers and a wide range of electromechanical and electronic products for industrial, residential and commercial applications.

Quality, innovation, continuous research and state-of-the-art manufacturing. These are the engines driving Finder's global success.

Thanks to an international sales network of 22 subsidiaries and more than 80 exclusive distributors worldwide, Finder exports its products all over the world.

Journeys deserve more space and comfort
