

Batteries and waste batteries regulation 2023/1542/EU

The batteries contained in Finder products are compliant with **Regulation 2023/1542/EU** which replaces **Directive 2006/66/EC**. They do not contain **Mercury, Cadmium and Lead** beyond the limits set out in **Annex I** of the Regulation.

Finder products are identified as **EEE**; and at end-of-life they must be taken to an appropriate recycling facility.

Finder confirms that it is duly registered with the National Batteries and Accumulators Register and to be a member of a Consortium for the collection and recovery of batteries.
