

THE NEW SMART  
THERMOSTAT FROM FINDER

# BLISS<sup>2</sup>

YOUR HOME YOUR CLIMATE

# BLISS2

YOUR HOME YOUR CLIMATE

# BLISS2

Much more than just a new connected thermostat with Cloud connectivity, BLISS2 is a new solution for smart home temperature regulation that works with Google Assistant and Amazon Alexa; and through the use of voice assistant routines BLISS2 also integrates perfectly with YESLY - Finder's smart home system.

## ORIGINAL

A true designer object by Fossati/Minelli, BLISS2 is elegant and minimal and fits well with all decorative styles.

Bright, intuitive and functional display provides the user with the right information at exactly the right time.

Conceived, designed and manufactured in Italy: truly **MADE IN ITALY**.

## SIMPLE

Perfectly suited for simple and extremely quick installation over "503" or 60 mm round wall boxes.

Low energy consumption contributes to longer battery life (approx. 18 months).

Too cold? Too hot?  
Use the quick temperature **VERRIDE** function for a short-term change.

## FUNCTIONAL

Advanced energy saving functions, such as **AUTO-AWAY** and customized reports.

Android and iOS Apps with an extremely intuitive design for weekly programming.

BLISS2 can interact with Google Assistant and Amazon Alexa and through the use of voice assistant routines it can also integrate with **YESLY**, Finder's smart home system.

Just say...

«Alexa, set the temperature at 21°.»

or just...

«Hey Google, I'm cold!»

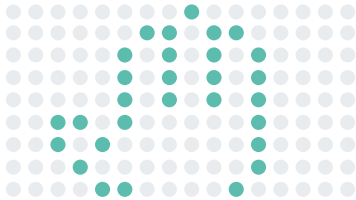

Talk to your preferred voice assistant and  
**BLISS2** will take care of climate control in your home.

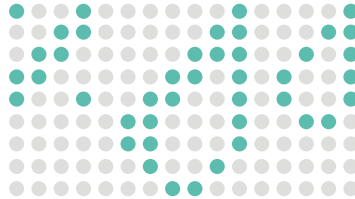

## DYNAMIC ICONS

Dynamic icons are user-friendly tools that help the user browse information.

**Manual mode:** allows you to change the temperature in a temporary or permanent way.

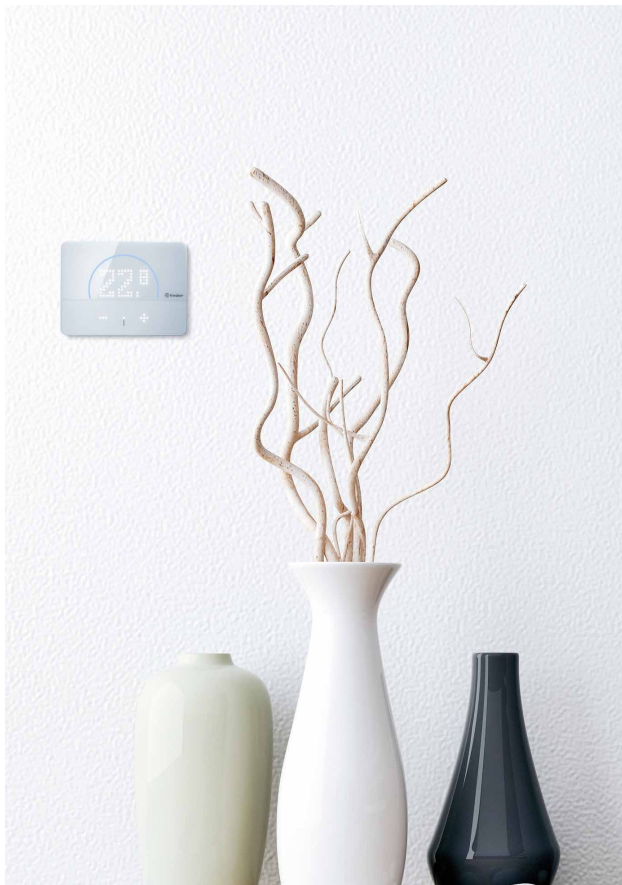

**Humidity:** indicates the room's relative humidity as measured by the integral RH sensor.

## A DESIGNER OBJECT

Perfect for almost any environment thanks to its sleek lines and its contrasting luminous and opaque finishes. Invisible when in standby mode but able to surprise as it lights-up... as it anticipates your approaching touch!

YESLY

TIME FOR  
COMFORT  
LIVING

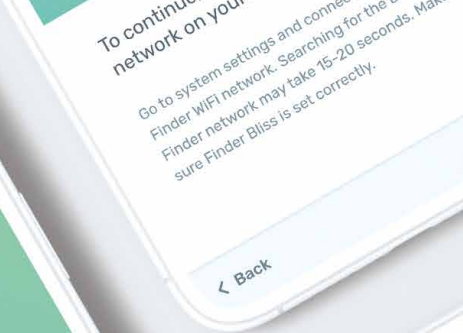

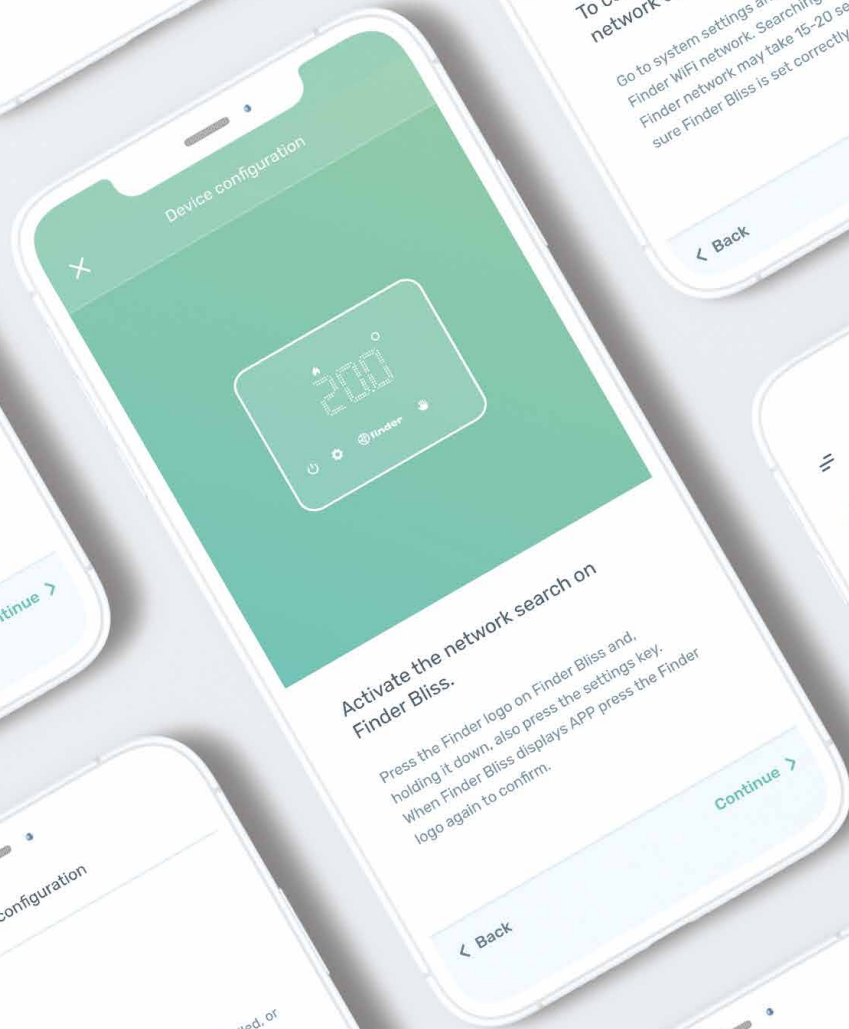

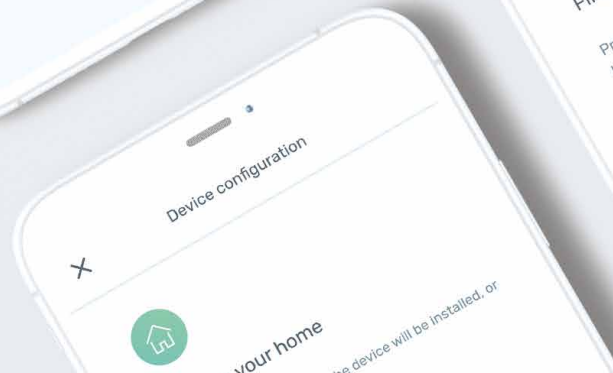

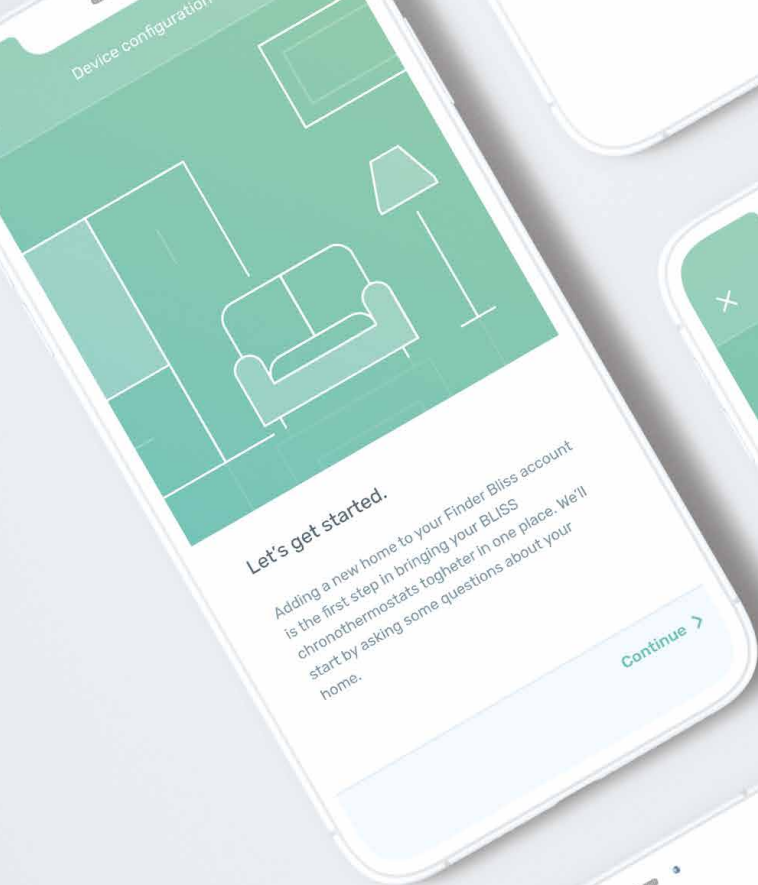

## CREATE YOUR OWN SMART ROUTINE

Much more than just a new connected thermostat with Cloud connectivity, BLISS2 is an innovative solution for smart home temperature regulation, interacting perfectly with your preferred voice assistant for a truly smart home.

Data security fully assured by the Finder Cloud

# AN AMAZING NEW APP

Manage your thermostat remotely using a simple and intuitive App.

Create and edit weekly time schedules.

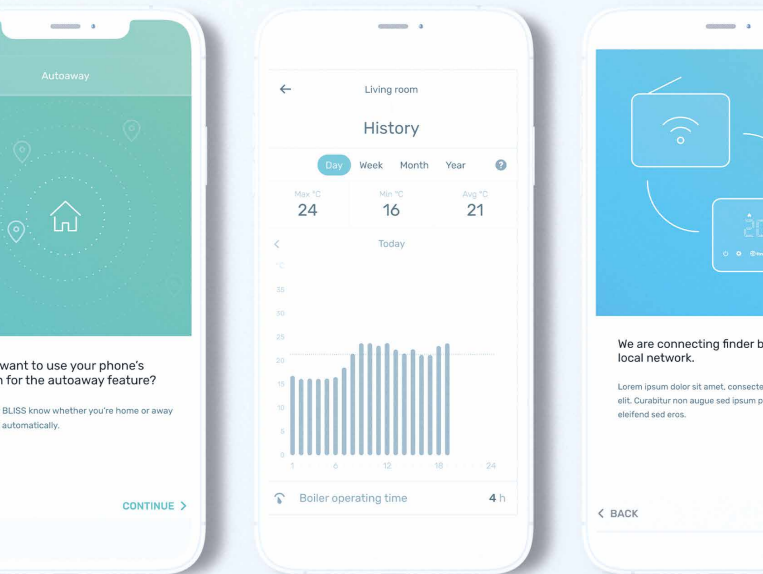

Share the thermostat with different users and manage it from multiple smartphones.

Control multiple thermostats installed in either a single location or in different locations.

Bliss

## AUTO-AWAY SIMPLICITY

With AUTO-AWAY you set a minimum temperature that the thermostat must maintain when you are away from your home by more than a certain distance. Used smartly, it will save on heating costs - yet still maintain maximum comfort.

## PERFORMANCE MONITORING

Monitor your system's daily or monthly working on-time and review against the set and the achieved room temperatures.

## EXPERIENCING A WI-FI FAILURE? NO PROBLEM - WE HAVE BLUETOOTH TECHNOLOGY!

Integration with Finder GATEWAY2 enables BLISS2 to function normally even with a loss of Wi-Fi - thanks to the App and BLUETOOTH connectivity.

Alternatively you can always manage the thermostat manually.

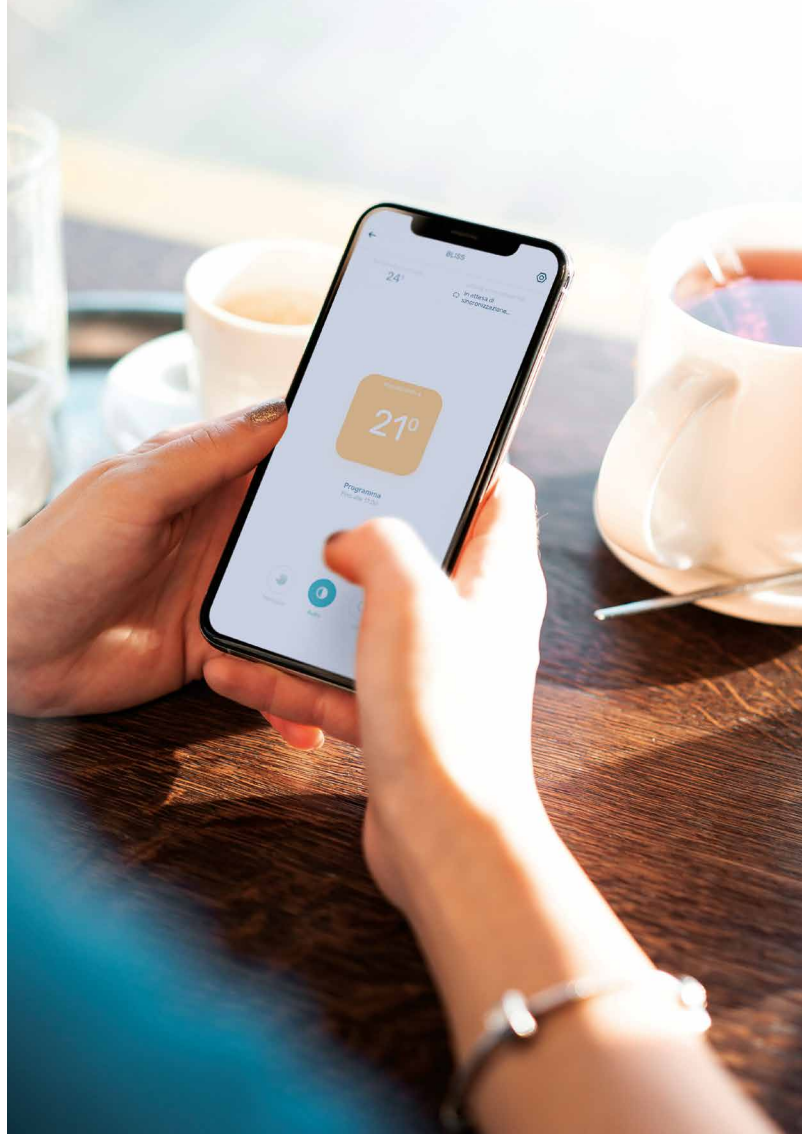

## CENTRALIZED CONTROL OF MULTIPLE DEVICES, REMOTELY AND QUICKLY

Multiple BLISS2 thermostats in different rooms

Multiple BLISS2 thermostats in different locations or apartments.

The ideal solution for holiday homes, bed & breakfast and similar establishments.

# THE PERFECT MATCH

For your system flexibility...

BLISS2 works in a synergistic way with the new second generation GATEWAY2 1Y.GU.005.1 which now combines long-range wireless connectivity with Wi-Fi and BLUETOOTH technology for full and uninterrupted thermostat operation.

## BUNDLED IN A SINGLE PACK

The BLISS2 pack contains everything you need to install your device as soon as it arrives.

The pack includes the second generation GATEWAY2 (code 1Y.GU.005.1), accessories and technical documentation.

**Finder recommends installation of its devices by professional electricians.**

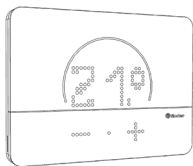

GATEWAY2

1C.B1.9.005.0007.POA

## TECHNICAL SPECIFICATIONS

### BLISS2

1C.B1.9.005.0007

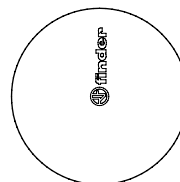

### DESIGN

- LED matrix with proximity sensor and touch keys
- Dynamic icons and an adjustable temperature range from +5 ... + 37 °C with a resolution of 0.1 °C
- Colour: WHITE

### TECHNOLOGY

- Long-range 868 MHz communication to back-up weak Bluetooth signals
- Highly sensitive temperature and humidity sensor
- 3x batteries, type AAA (estimated electrical life of 18 months)
- Perfect for direct surface mounting or installation over "503" or 60 mm round wall boxes
- 1 changeover contact, 5 A - 230 V AC

### GATEWAY 2nd GENERATION GATEWAY2

Type 1Y.GU.005.1 - 2<sup>nd</sup> generation

With the second generation GATEWAY2 you can control your BLISS2 thermostat remotely, from anywhere in the world - even by voice using your preferred voice assistant.

With GATEWAY2 you can integrate BLISS2 into a YESLY system for the smart control of your entire home.

### TECHNOLOGY

The second generation GATEWAY2 connects using the **2.4Ghz Wi-Fi** network of your home router. If an Internet failure is experienced, the system continues to be operational thanks to **Bluetooth** connectivity. The YESLY GATEWAY2 is small, elegantly designed and very easy-to-install.

**GATEWAY2 can be integrated into both new and existing YESLY systems.**

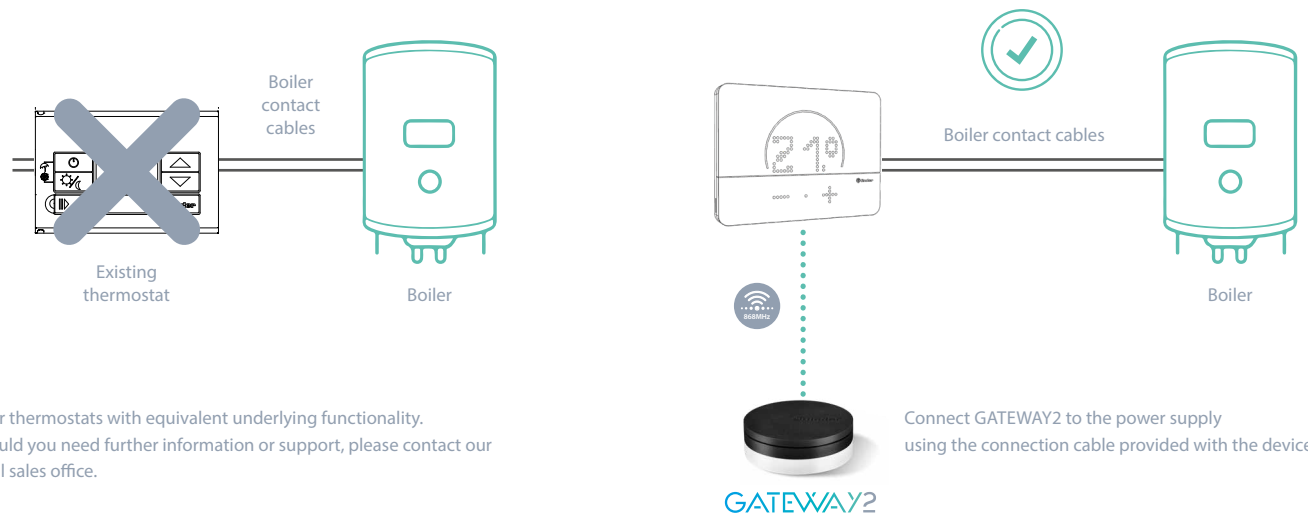

## AN EASY REPLACEMENT FOR YOUR EXISTING WALL-MOUNTED, BATTERY-POWERED OR WIRED THERMOSTAT

BLISS2 is the simplest solution for replacing any existing thermostat, irrespective of it being battery-powered, wired, direct surface mounted or fitted over an electrical wall box. Installation is fool-proof and does not require any supply wiring as it is battery powered.

As for GATEWAY2, this only requires the power cable to be plugged into a local socket.

The Finder BLISS App provides the user with all the instructions required for device programming.

BLISS2 is a suitable replacement for any Finder or third-party-branded device.\*

\* For thermostats with equivalent underlying functionality.  
Should you need further information or support, please contact our local sales office.
