1Y.GU.005.1
GATEWAY 2ⁿᵈ GENERATION Wi-Fi 2.4 GHz - Radio 868 MHz

❶ INSTALLATION
Connect the Micro USB connector to the Gateway and the power supply to the electrical outlet.
After switching on, the Gateway's luminous base will flash with a fading white light, awaiting configuration.
Use the **FINDER YOU** app both for configuring the BLISS2 smart chronothermostat and for YESLY systems.
For more information: scan the QR code below.

❷ LUMINOUS BASE
WHITE LED
- **Flashing fading**: waiting for configuration
- **Fixed**: connection established with both the Wi-Fi network and the Cloud
- **2 flashes**: connected only to the Wi-Fi network - no connection to the Cloud (internet not active)
- **3 flashes**: no connection to the Wi-Fi network and no connection to the Cloud (internet not active)
BLUE LED
Flashing: sending Bluetooth commands to the devices
RED LED
Flashing: commands are sent to the Smart Bliss2 thermostat

❸ GATEWAY SETTING
To change the light intensity of the GATEWAY base:
- press the button once: Low brightness
- press the button twice: Medium-Low brightness
- press the button 3 times: Medium-High brightness
- press the button 4 times: High brightness

RESET
Press the button for > 10 seconds to reset the settings to factory
