

MARINE APPLICATIONS

Products and components specifically approved for the marine sector.
For passenger vessels, yachts, off-shore, ports, marinas and more.

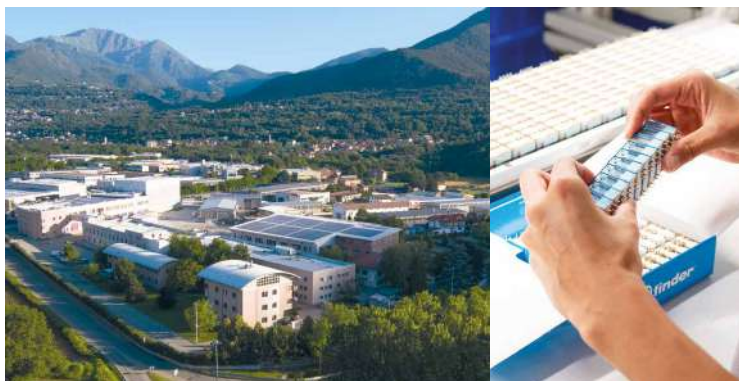

ABOUT US

Finder was founded in Italy in 1954. Since then it has been designing and manufacturing a wide range of electromechanical and electronic components for both the residential and industrial sectors.

Today, thanks to its global vision, Finder now distributes its products around the world through a network of 29 company-owned subsidiaries and more than 80 trade partnerships.

Finder is an international family made up of more than 2000 individuals, all united by the same values and passion for our products.

14,000+ different products to satisfy a myriad of applications. From products at the heart of automation to the control of machines, power, time, temperature, liquid level and light

OUR PRODUCTS CARRY MORE CERTIFICATIONS THAN ANY OTHER RELAY MANUFACTURER

FINDER IS AN ITALIAN BRAND WITH A WORLDWIDE PRESENCE

4 PRODUCTION PLANTS IN EUROPE

29 SUBSIDIARIES

80+ OFFICIAL DISTRIBUTORS

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG)

Finder considers social and environmental sustainability as fundamental principles of doing business, just as it believes that business growth must develop in synergy with a conscious vision of the future.

That is why Finder is committed to reducing and eliminating CO2 emissions, focusing on circularity, caring for its employees to foster a safe, fair and inclusive work environment, spreading a culture of integrity and transparency, and collaborating with stakeholders who share its values.

AUTONOMY AND INDEPENDENCE

Finder's managerial, financial and technological autonomy allows optimal control over all its business processes, the results of which include simplified customs procedures and a high reliability of commercial relations.

We are your global partner for safe, efficient and sustainable electrical systems

Finder is the reliable partner for shipyards, shipowners and port management companies looking to enhance innovation, sustainability and style aboard their vessels or assets.

New cruise passenger vessels and yachts need a tailored approach as well as solid and reliable solutions, while **retrofitting** has given ship owners the flexibility to adapt existing vessels to rapid market changes. Embracing innovation, they can now meet stringent safety and environmental regulations while unlocking new opportunities.

Finder is at the forefront of this evolution, providing simple yet cutting-edge solutions that optimize electrical systems performance, enhancing passenger comfort, and minimizing environmental impact.

From electrical power distribution to advanced monitoring systems, our expertise empowers ship owners to navigate the complexities of the marine industry with confidence.

Marinas, also, benefit from Finder commitment to sustainability. Our energy management solutions help optimize resource consumption, reduce costs, and contribute to a greener future for these vital hubs of maritime activity.

Our marine-grade products are rigorously tested to withstand the harshest conditions.

Engineered for longevity, they boast exceptional corrosion resistance, extended electrical lifespan, and unparalleled reliability.

Most products (depending on type) are approved by:

FINCANTIERI

AZIMUT | BENETTI

**CHANTIERS
DE L'ATLANTIQUE**

FERRETTIGROUP

 **ABSOLUTE**

CANTIERE DELLE MARCHE

Solutions across the board for the marine industry

SHIPYARDS / PASSENGER VESSELS

Energy, light, HVAC bridge and cabins management

Lifts & elevators

Electrical systems for propulsion, water treatment, navigation, alarms, etc.

YACHTS & SMALL BOATS

Tailor-made energy, light, HVAC automated management systems with local or remote control

Electrical systems for professional kitchens, entertainment , etc.

MARINAS & PORTS

Energy & water management, control and billing solutions for port managers and authorities

Management of public lighting, lifts and automations inside the port/marina

The Finder difference at sea

Reliable Solutions for a Challenging Environment

RELIABLE SOLUTIONS

Dependable and approved solutions for challenging marine environments

EASY TO OPERATE & SERVICE

Intuitive devices and systems for effortless installation, operation and maintenance

SUSTAINABLE & FUTURE PROOF

Committed to a greener future, our products are designed to reduce environmental impact and meet evolving industry regulations

COST & PERFORMANCE OPTIMIZATION

Optimize your vessel's efficiency by leveraging our devices which balance performance with cost-effectiveness, delivering maximum return on investment

GLOBAL SERVICE NETWORK

Finder's Italian headquarters and extensive global network ensure you have a dedicated partner accessible anywhere you are, with local support always available

ENERGY EFFICIENT BY DESIGN

Energy efficiency is at the core of our product development. By optimizing energy consumption, you can reduce operating costs and minimize your carbon footprint

Performance – Reliability – Approvals

Wide range of approved components (according to type)
suitable for **the management of on-board equipment.**

Electrical distribution boards
48 / 4C / 62 / 22 Series

Fire prevention systems
48 / 7S / 70 / 80 Series

Navigation automation panels
39 / 4C / 78 / 84 / 83 Series

Thruster propellers
58 / 22 / 83 Series

**Lifting and elevator systems,
general services**
7S / 4C / 58 Series

Auxiliary propulsion systems
48 / 4C / 58 / 62 Series

80 Series
Modular timers,
17.5 mm

83 Series
Modular timers,
22.5 mm

84 Series
SMARTimer

22 Series
Modular
contactors

7S Series
Modular relays
with forcibly guided
contacts

78 Series
Switch mode
power supplies

70 Series
Monitoring relays

39 Series
Relay interface
modules, 6.2 mm

58 Series
Relay interface
modules, 27 mm

48 Series
Relay interface
modules, 15.8 mm

4C Series
Industrial interface
modules, 15.8 mm

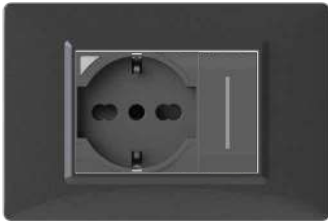

Cabin electrical system

Cabin and ship-wide electrical systems are paramount for ensuring passenger comfort, safety, and operational efficiency on cruise ships.

Innovative electrical systems are the backbone of this technology, delivering the power and control needed to elevate the overall cruise experience.

Custom color options for cover plates and devices

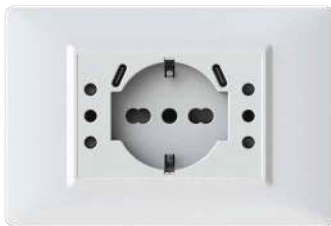

4box - S Series - Smart socket and push-button

Smart socket & push-button with energy meter to control lights, shutters, or cabin's mini-fridge.

4box - U Series - USB charging

Future-proof your: equip your space with cutting-edge 20W USB charging.

4box - U Series - USB socket

Unleash Universal Power with USBP503: the All-in-One charging hub for every device

4box products are compatible with the most popular residential and commercial wiring accessory systems and totally customizable

Bticino®

Vimar®

Gewiss®

Design solutions for HVAC

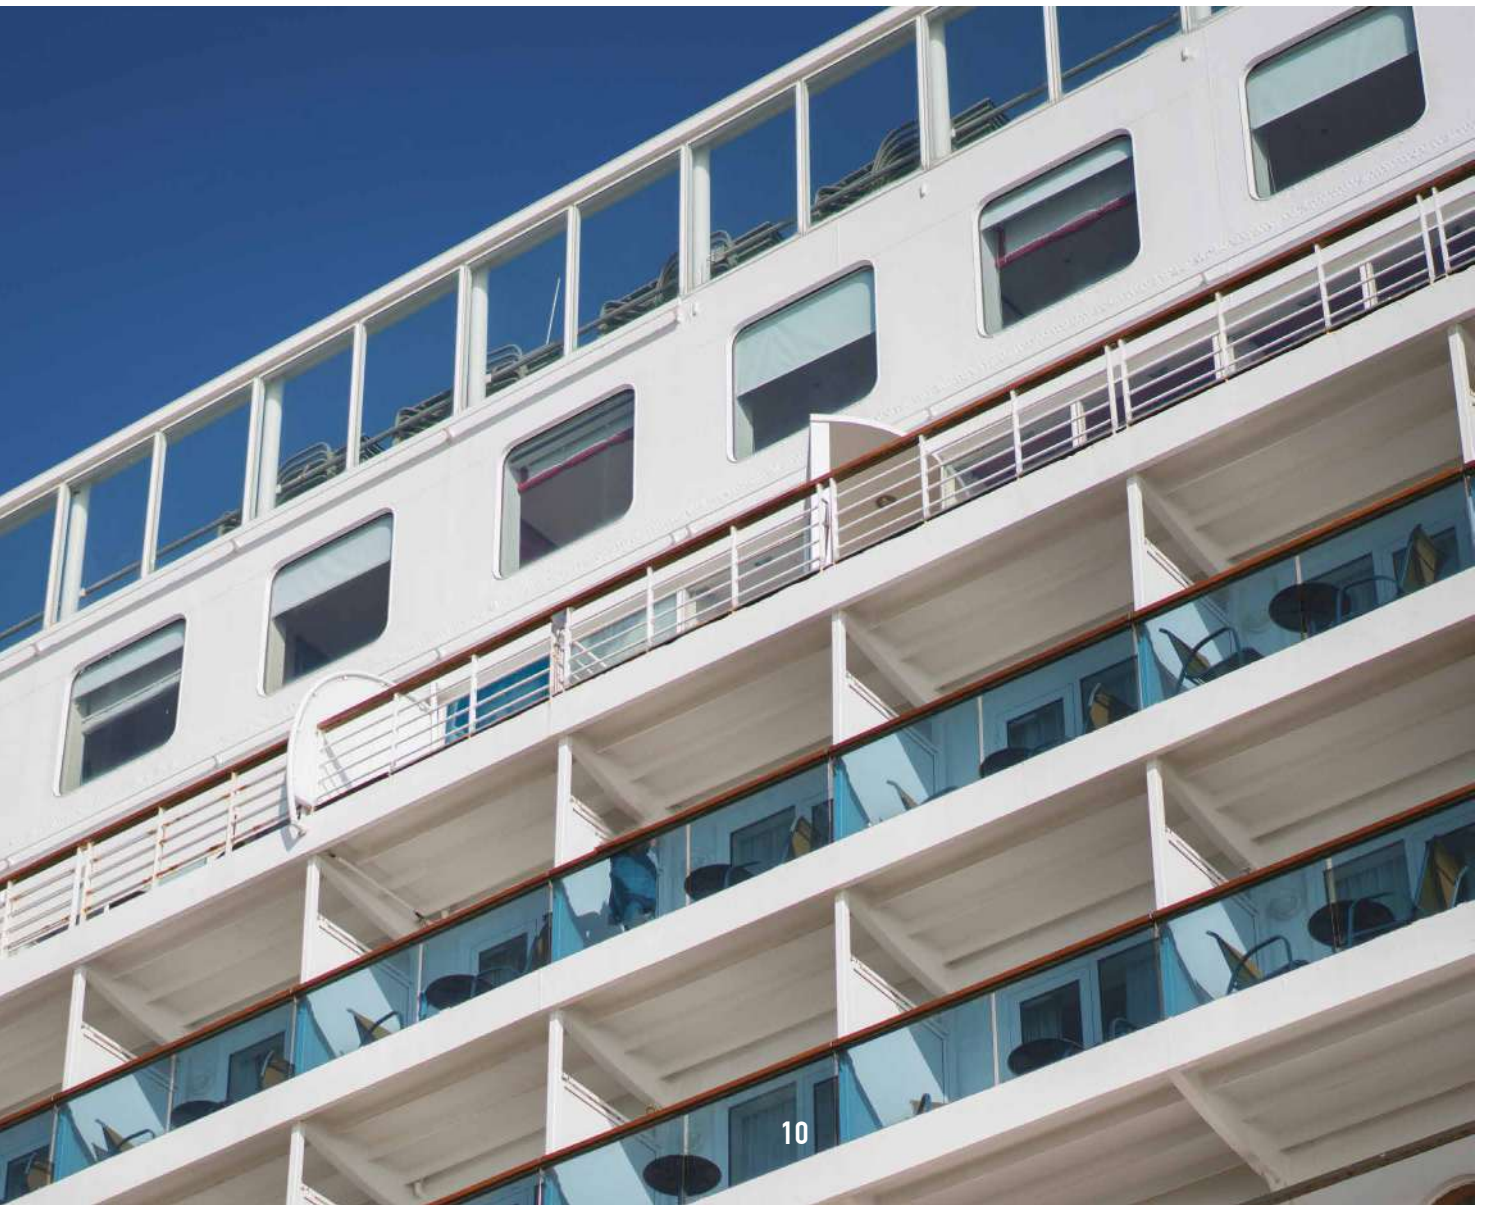

Ditch the dials, chill in style!
Our elegantly intuitive thermostats keeps your comfort on point, integrating design and comfort control.

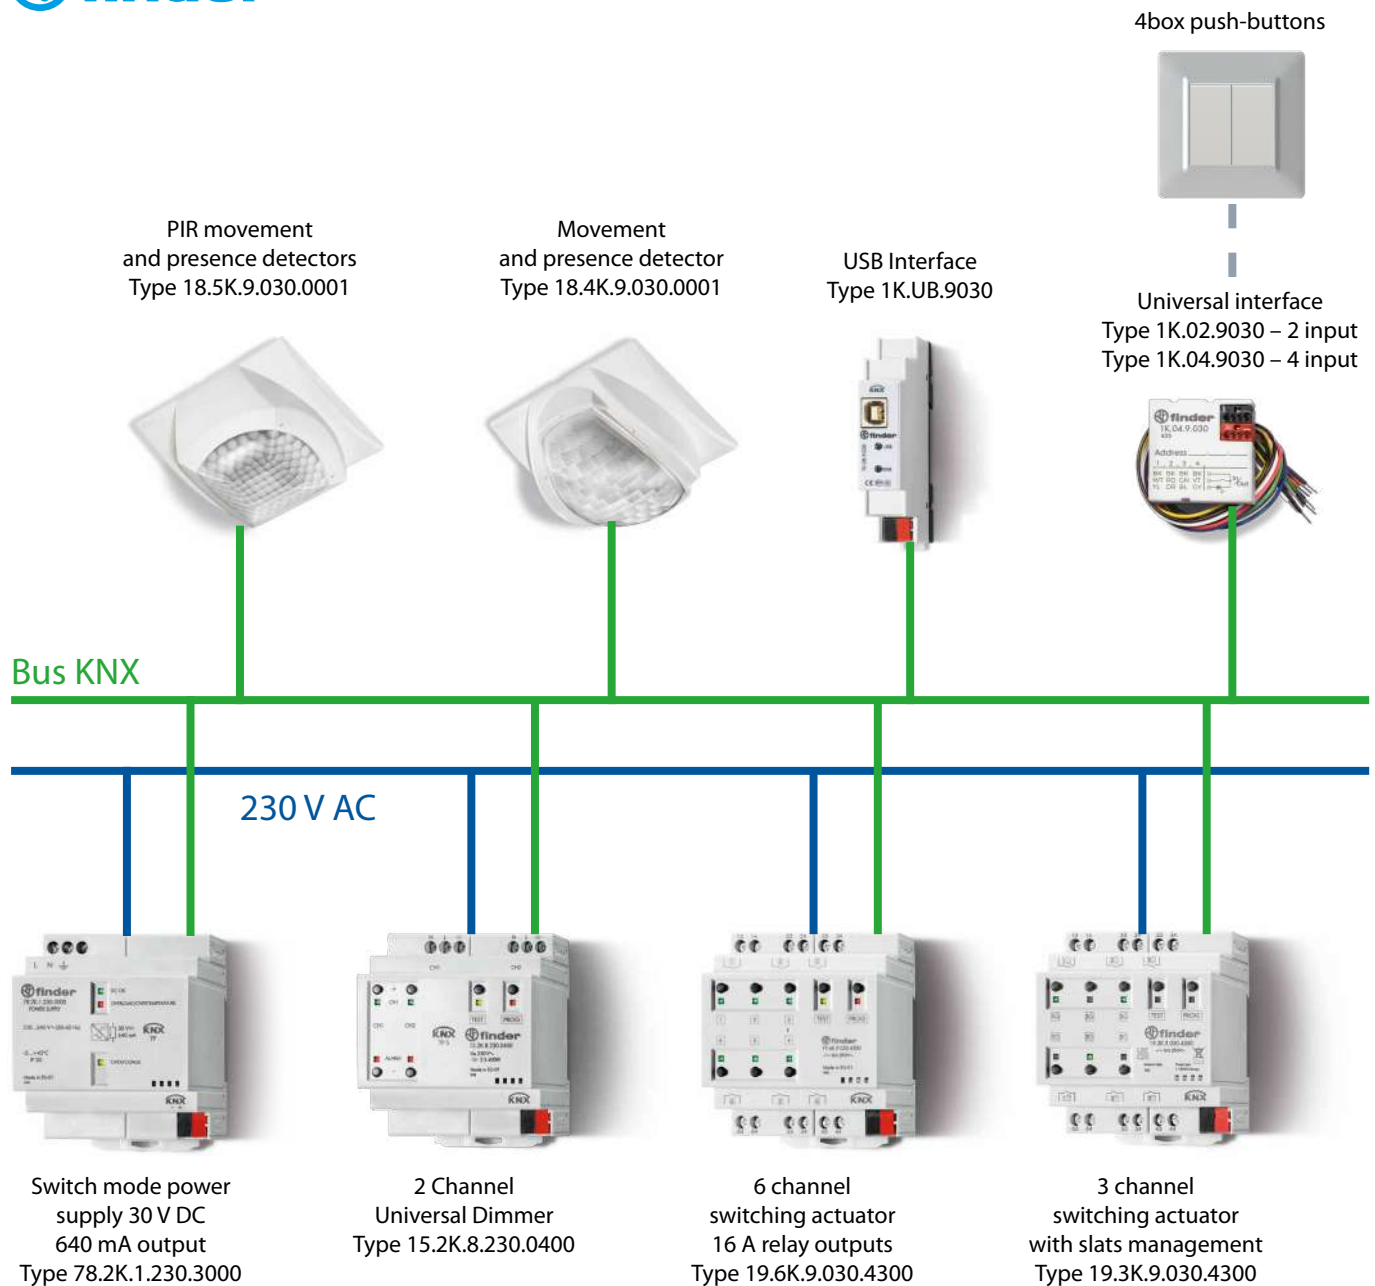

KNX cabin system

KNX: The global standard for large areas

KNX is the world's leading open standard for intelligent building automation. It seamlessly integrates diverse systems like lighting, heating, security, and more into a unified, efficient network. Compliant with stringent European and international regulations, KNX delivers unparalleled flexibility and scalability across commercial, industrial, residential, and public spaces.

Finder offers a specific, high-performance portfolio of devices ideal for the integration in large, complex projects, which are able to deliver astounding reliability and ease of use.

Unleash Control with KNX

Create personalized lighting, room atmospheres, and integrated functions for ultimate comfort. Our KNX solutions combine performance and user-friendliness to exceed customer expectations.

Effortless Installation

KNX controllers simplify wiring by mounting discreetly in ceilings or cabinets. Easily manage diverse loads for streamlined installation and reduced complexity.

Flexible and Reliable Configuration

Remotely control and fine-tune sensor parameters for optimal performance and adaptability. KNX offers unmatched flexibility, reliability, and consistency.

Exclusive comfort

Maximum comfort through **the management of equipment with elevated energy usage, such as air conditioning and lighting.**
Components designed to create the right ambience for every location - whatever the purpose or occasion.

Installations with significant energy usage and air conditioning management
22 / 80 Series

Management of appliances in restaurants and kitchens
70 / 22 Series

Lighting management for outdoor and common areas, cabin lights
13 / 15 / 18 / 20 / 22 / 78 / 39 / 80 Series

Automation for communal areas and relaxation zones
15 / 22 / 78 / 84 Series

Automation and lighting management for entertainment control systems
39 / 15 / 78 Series

22 Series
Modular contactors

80 Series
Modular timers,
17.5 mm

15 Series
Dimmers

13 Series
Electronic relays

20 Series
Modular step relays

78 Series
Switch mode
power supplies

84 Series
SMARTimer

70 Series
Monitoring relays

18 Series
PIR movement
detectors

39 Series
Relay interface
modules, 6.2 mm

High functionality

Compact, powerful and flexible components for diverse applications.

Our guarantee of experience and component quality is your promise of electrical panels that are easy to arrange and easy to maintain.

Interface between navigation systems and utilities

39 / 48 / 4C Series

Doors and external automation

22 / 4C / 58 Series

Automation of technical areas

39 / 4C / 78 / 84 / 83 Series

Management of bilge pump panels

58 / 22 / 72 Series

Auxiliary control panels

48 / 4C / 22 Series

Quay network control systems

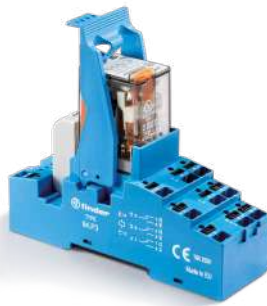

48 / 70 / 80 Series

39 Series
Relay interface
modules, 6.2 mm

48 Series
Relay interface
modules, 15.8 mm

58 Series
Relay interface
modules, 27 mm

84 Series
SMARTimer

78 Series
Switch mode
power supplies

22 Series
Modular contactors

Type 72.42
Relay for
alternating loads

15 Series
Dimmers

70 Series
Monitoring relays

83 Series
Modular timers,
22.5 mm
