REACH - Regulamento (UE) 1907/2006

REACH é uma regulamentação europeia para a utilização segura das substâncias químicas, relacionada ao registro, ao valor, à autorização e à restrição das mesmas (REACH é o acrônimo de **R**egistration, **E**valuation, **A**uthorization and **R**estriction of **C**hemicals).

REACH substitui numerosas normas comunitárias relacionadas às substâncias químicas (seja quando representam um ingrediente da mistura ou todo o preparo das substâncias químicas) e complementa as demais normas ambientais e de segurança.

Um dos seus objetivos mais importantes é certamente o de preservação da saúde humana e do ambiente em relação aos riscos que poderiam provir da utilização de substâncias químicas, como tais ou como componentes de uma mistura ou de um produto.

Estas restrições entram em um contexto levado em consideração pela Finder já há algum tempo.

Como **usuários finais** de substâncias químicas, comunicamo-nos constantemente com os nossos fornecedores, analisando e mantendo sob rigoroso controle as fichas de segurança previstas para cada tipo de substância ou mistura. Lembra-se que a Finder emprega tais substâncias em seus processos produtivos sem modificar as suas características químicas.

A Finder se compromete a manter elevada a sua atenção na escolha dos fornecedores, garantindo uma comunicação cada vez maior com os próprios Clientes com referência às atualizações das tabelas divulgadas pelos órgãos oficiais (ECHA). Segue-se a lista das substâncias altamente perigosas "Candidate list of substances of very high concern for authorization (SVHC)" e a extrapolação da lista de substâncias do Anexo XVII da regulamentação REACH atualizada.

Além disso, a política ambiental da Finder é realizada por um Sistema ISO 14001 (Sistema de Gestão Ambiental), que produz questionários que servem para avaliar preventivamente os indivíduos que colaboram com ela. Sendo **usuários** de substâncias químicas, aplicam-se medidas de prevenção dos riscos que delas derivam. Por este motivo, em acréscimo ao que foi dito acima, a empresa realizou um Sistema de Gestão da Saúde e Segurança, que garante a proteção das pessoas envolvidas nos vários processos de produção.
