ROOM THERMOSTATS

A wide range of classic and smart thermostats, and chronothermostats for residential and commercial temperature control

ABOUT US

Finder was founded in Italy in 1954. Since then it has been designing and manufacturing a wide range of electromechanical and electronic components for both the residential and industrial sectors.

Today, thanks to its global vision, Finder now distributes its products around the world through a network of 29 company-owned subsidiaries and more than 80 trade partnerships.

Finder is an international family made up of more than 2000 individuals, all united by the same values and passion for our products.

14,500 different products to satisfy a myriad of applications. From products at the heart of automation to the control of machines, power, time, temperature, liquid level and light

OUR PRODUCTS CARRY MORE CERTIFICATIONS THAN ANY OTHER RELAY MANUFACTURER

FINDER IS AN ITALIAN BRAND WITH A WORLDWIDE PRESENCE

4 PRODUCTION PLANTS IN EUROPE

29 SUBSIDIARIES

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG)

Finder considers social and environmental sustainability as fundamental principles of doing business, just as it believes that business growth must develop in synergy with a conscious vision of the future.
That is why Finder is committed to reducing and eliminating CO_2 emissions, focusing on circularity, caring for its employees to foster a safe, fair and inclusive work environment, spreading a culture of integrity and transparency, and collaborating with stakeholders who share its values.

This focus is demonstrated by the company's commitment to the following internationally recognized projects and certifications:

AUTONOMY AND INDEPENDENCE

Finder's managerial, financial and technological autonomy allows optimal control over all its business processes, the results of whicah include simplified customs procedures and a high reliability of commercial relations.

ISO 9001:2015
Quality management system

ISO 14001:2015

Finder BLISS connected thermostats and chronothermostats

Connected, smart, for intelligent system management

The Finder BLISS range is designed for those who want to manage their temperature control system intelligently. This can be done at home, remotely or through voice assistants, such as The Google Assistant and Amazon Alexa.

Why choose Finder BLISS thermostats and chronothermostats?

- SMART INTEGRATION
- Can be integrated with Google and Amazon voice assistants
- System consumption reporting via the free Finder YOU App
- Design and technology MADE IN ITALY

smart features refer to Wi-Fi models and may vary between devices.

Power supply for BLISS Wi-Fi NEXT smart cronothermostat

This power supply is perfect for installations with multiple thermostats, in both the residential and commercial sectors (such as hotels, B&Bs and offices).
When using the BLISS Wi-Fi NEXT with the external power supply, the batteries MUST be removed.

- Rated power: 2 W
- Nominal voltage: 110…230 V AC
- Output voltage: 3 V DC
- Ambient temperature range: 0…40 °C
- Maximum cable length between power supply and BLISS Wi-Fi NEXT: 40 m (2x1.5 mm² flexible cable)

SWITCH TO THE FUTURE

BLISS2 – radio frequency actuator and power supply

Type 13.21.8.230.S000
Radio frequency actuator for the BLISS2 smart thermostat

- 1 CO (SPDT) 16 A
- Temperature control for single or multi-zone installation
- Heating or cooling system with great versatility in use
- Integration with BLISS2 also for dehumidification systems
- Radio frequency communication between BLISS2 and actuator 13.21-S000 via the GATEWAY that concentrates all communications among the various devices

Type 01C.02.8.230.0500
Power supply for the BLISS2 smart thermostat

The power supply is ideal for installation in multi-device environments, whether residential or commercial. It is particularly suitable for hotels, B&Bs and offices. When using a BLISS2 thermostat with an external power supply, the batteries MUST be removed.

- Rated power: 2 W
- Nominal voltage: 110…230 V AC
- Output voltage: 5 V DC
- Ambient temperature range: 0…40 °C
- Maximum cable length between power supply and BLISS2: 40 m (2x1.5 mm^2 flexible cable)
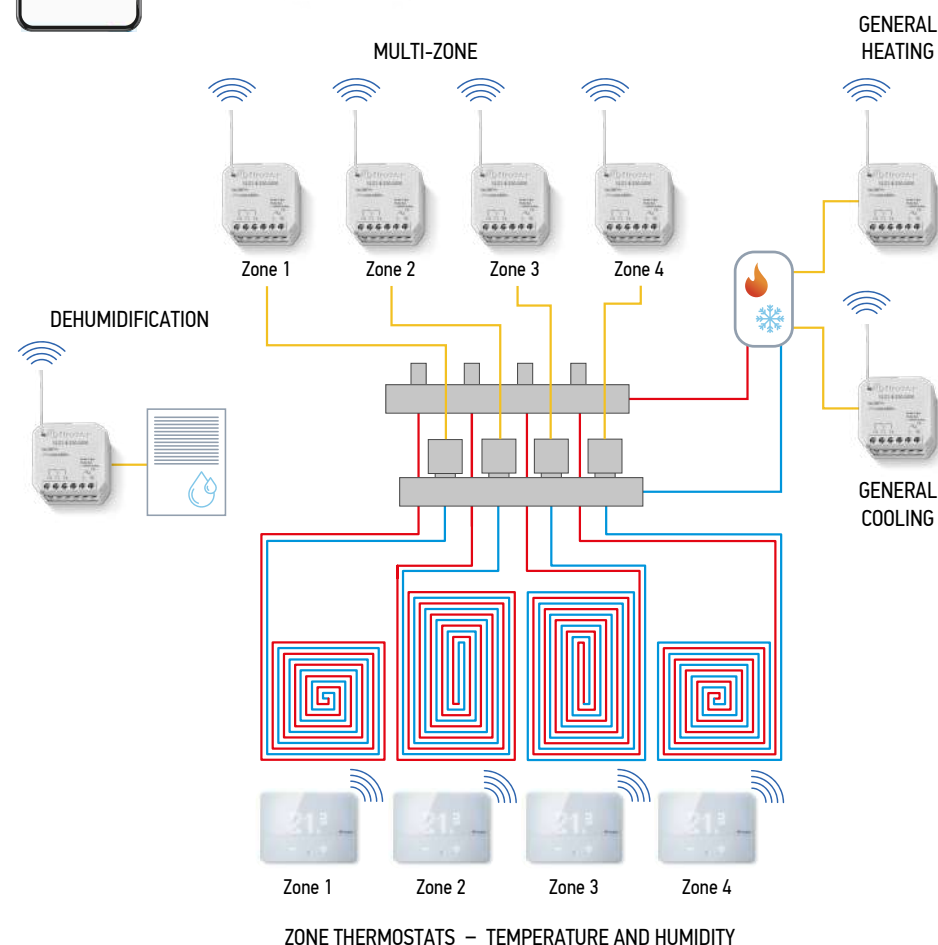

Multi-zone application example

Multi-zone application example with a heating/cooling switching system in summer and winter. The system is controlled by zone thermostats that communicate with the remote actuators through the GATEWAY.

THERMO SLIM

NEW

Tipo 1T.T1.8.230.0000

Extremely simple and versatile

Face plate only 5 mm thick for a sleek, elegant look

Face plates for 2 and 3 modules included in the pack

Thermostats for recessed wall box mounting

"ALL-IN-ONE"

- **The thermostat, front plates, and the frames for 2 or 3 module and 65 mm round wall boxes are included in the pack.**
- Thermostat and front plate system with a sleek, coordinated look
- 5A 1 CO (SPDT) contact
- 110…230 V AC
- LED matrix display
- Adjustable temperature sensor

EXTERNAL TERMINALS: NTC sensor and dry contact

- If the **external terminals are not used** the thermostat will refer to its internal temperature sensor.
- If there is an external 10 kΩ **NTC sensor**, the thermostat will take that as the reference for the temperature
- If there is a **dry contact** closed on the terminals, it will set the thermostat to night mode, lowering the temperature until the contact opens

Mounting in 2 module or 65 mm round wall boxes
Mounting in 3 module wall boxes

Only 5 mm wide

Summer/Winter switch

Blocco del display

Display with adjustable brightness control

Day/Night setting

Optional external sensor
